1ST HALF MARATHON START

Legend

- The San Francisco First Half Marathon Route
- Alternate Route
- First Half Marathon Mile Markers
- Aid Station with GU
- Aid Station
- Shuttle Bus

The elevation profile graph shows the terrain of the marathon route. The x-axis represents distance in miles (0 to 26), and the y-axis represents elevation in feet (0 to 600). The profile shows a significant climb in the first 10 miles, followed by a relatively flat section until the end of the race.
